

**4-H Buymanship Project Garment Evaluation Form
(one evaluation form per outfit)**

Name _____ Age _____ Years in Buymanship Project _____

Complete both sides of this form.

Be ready to discuss these questions with the buymanship judge who will evaluate your outfit.

Learning to judge the quality in clothes and accessories can help you get the most for your money and is a great asset. The quality you look for will depend on the use of a garment or accessory. Suits, coats and basic items the will be worn often and for a longer period of time, should be the best quality you can afford.

1. Why did you decide to purchase this garment/s? _____

Knowing how to properly care for garments will extend their life plus help diversify your wardrobe.

2. (See care label) How will you care for these garments/s? _____

Wardrobe planning doesn't just happen, it takes planning and effort. One of the main goals of wardrobe planning is to create a well-coordinated wardrobe. It will seem like you have more clothes when garments match and you can change them around to get more wear out of fewer garments.

3. Describe how your new garment/s can mix and match with your other garments. _____

A variety of construction techniques can be used to produce a quality garment. Before buying a garment, look at both the right and wrong sides of the garment/s and examine individual garments parts to see if each is in working condition, attractive, and securely made.

4. Using a scale of 1(poor) to 5 (excellent) rate the quality of your garment's characteristics. (your garment/s may not have every characteristic)
