LIVESTOCK PROJECT: SPRING SHOWS, EVENTS, AND MORE

STATE FAIR ANIMALS

Exhibiting an animal beyond the 4-H division at a Post Rock District county fair means that ownership and identification must meet the requirements outlined by the specific show's governing body. The 4-H member is responsible for understanding the deadlines and expectations involved. Contact your local Extension Office as soon as possible if you are considering showing ANY species at the Kansas State Fair, so we can share resources to help you navigate the process.

LIVESTOCK COUNTY FAIR MANAGEMENT CLINIC

The Livestock County Fair Management Clinic will be hosted April 13 & 16, 2026, virtually, from 7:00-9:00 p.m., via Zoom. This clinic has been designed for county fair board members, superintendents, and volunteers involved in local livestock fair management and leadership. The program consists primarily of an open forum discussion for individuals working with livestock at their local fairs. Although some of the topics can be applied generally to the county fair, this program focuses on the livestock perspective and projects. K-State faculty and staff will facilitate discussion led by fair board members and extension agents directly related to livestock at local livestock fairs in Kansas. The clinic has been divided over two evenings, with different topics being covered each night. All three topics the first night will be general sessions. The second night will be kicked off with a general session, followed by breakout discussions. It is advantageous to have several representatives from your county attend. The sessions will be recorded for those who register. [Register online by April 6.](#)
