STATE FAIR ANIMALS

Exhibiting an animal beyond the 4-H division at a Post Rock District county fair means that ownership and identification must meet the requirements outlined by the specific show's governing body. The 4-H member is responsible for understanding the deadlines and expectations involved.

- Contact your local Extension Office as soon as possible if you are considering showing at the Kansas State Fair, so we can share resources to help you navigate the process.
- If your animal species doesn't classify for state livestock nomination, visit the Kansas 4-H State Fair Book for important ownership, verification, and exhibition deadlines and details.
- All market animals and commercial females youth would like to be eligible for the Kansas State Fair Grand Drive and/or Kansas Junior Livestock Show (KJLS) must be nominated. The Kansas Youth Livestock Program website outlines the State Livestock Nomination Process under the "Nomination Information" tab. Families are highly encouraged to use the resources available, especially the Rookie Guide.
- There are multiple changes to the horse project at the state-level, specifically relating to level testing, qualifying shows, and the state horse identification form/deadline. Visit the Kansas 4-H Horse Project webpage for a complete summary of Kansas State Fair horse show changes. Also, read the Kansas 4-H State Fairbook.

FOODS AND NUTRITION: NEW FROSTING/FILLING RULE FOR FAIR

Kansas State Fair has a new rule for frostings and fillings. For food safety purposes, any entries with frostings and fillings must calculate the amount of sugar in the frosting/filling recipe only. Calculation must be attached to entry, or the placing will be lowered one ribbon when judged. Frosting and fillings need to contain more than 65% sugar for safety. For examples on how to calculate this percentage, go to this publication at: https://bookstore.ksre.ksu.edu/pubs/MF3544.pdf.

STATE HORTICULTURE JUDGING CONTEST

The State 4-H Horticulture Judging Contest is August 12 in Manhattan. If interested, let your local office know so we can register you. There are team and individual opportunities. The study materials will be posted on the Kansas 4-H Horticulture Judging Contest webpage.

STATE FAIR STATIC (NON-ANIMAL) EXHIBITS

Each county fair’s 4-H division allows qualification for the Kansas State Fair in accordance with the expectations outlined in the Kansas 4-H State Fair Book. There may be additional exhibit requirements to exhibit at the state fair, and some county-level projects are not eligible to go to state. 4-H members must refer to their county fair book to understand when qualifying projects must be designated for state fair. Post Rock District staff will complete the entry process as outlined by Kansas 4-H, using the information submitted by qualifying members.

Post Rock District staff will coordinate transportation of non-animal exhibits to-and-from the Kansas State Fair for 4-H exhibition. Exhibits will only be transported by extension staff if they can easily be moved by one person, if they can fit within an extension vehicle, and if they can be safely transported with many other items. 4-H members can transport their own items, including those that are too large, heavy or fragile.

STATE FAIR ANIMALS
SET GOALS FOR SUMMER LEARNING
Setting measurable goals helps guide youth through a high quality 4-H project learning experience. Make sure you have clear goals for each enrolled 4-H project. This will help you focus your learning during the summer months. Use the Kansas 4-H Setting 4-H Project Goals resource to help you, or complete the goal section of your Project Record Report form.

ZBOOKS - ONLINE 4-H RECORD BOOK
Don’t delay getting your online permanent and project record books started with Zbooks! Use your device to keep track of activities and project information throughout the busy season. Find details at the Kansas 4-H Zbooks Online 4-H Record Keeping resource webpage.

PROJECT OWNERSHIP BY MAY 1
The Post Rock District Board believes that in order for high quality project learning to take place through 4-H, projects (animals and non-animals) should be owned by May 1 of the current year. All exhibits entered in the 4-H division of a county fair must be the handiwork of the exhibitor; the grower, where agricultural exhibits are shown; and the owner and feeder, where livestock is entered. All exhibits entered in the 4-H division of a county fair must be the result of the current program year’s work. Ownership is defined so that the project (animal, garden, crop, exhibit creation, sewing, photo, etc.) is under the daily care and supervision of the member; all project-related practices, expenses, and management are the responsibility of the member; and all county fair exhibits should be a planned part of the project.

PROJECT VERIFICATION BY PRE-FAIR DEADLINE
Effective this 4-H year, the Post Rock District Staff or 4-H Councils do not require verification of project ownership by May 1 for animals or non-animal project exhibits; however, refer to the Project Ownership by May 1 article (above) for emphasis on learning value. Beginning this 4-H year, each 4-H Council is to designate a pre-fair entry deadline, and the Post Rock District recommends having one deadline for all project areas in the 4-H division of the county fair. The pre-fair deadline is when all project exhibits must be designated for the class which they will be shown in at the county fair. Entries can be dropped, but not added after the pre-fair deadline. Any project areas not required by 4-H Council to meet the pre-fair deadline will submit entry requirements at the project’s fair check-in time. The 4-H Council will have an exhibit entry card or form designated in the fair book which will be used to meet the entry requirements for each project area. This will be used to describe the exhibit and articulate class of exhibition.

- Check your county’s 4-H newsletter page to find the pre-fair entry deadline set for your respective county fair. This is a very important date to have marked on your calendar if you want to exhibit a 4-H project (animal and non-animal) at the county fair!
The deadline for fair animal and project verification is June 15 (pre-fair deadline). Fair clean-up is June 29. Clothing and Textiles, Foods and Nutrition, and Photography Judging is July 5.
