LIVING WELL WEDNESDAY
K-State Research and Extension Webinar Series

Rapid Development of Baby Brains and Why It Matters

Wednesday, Dec. 6th
12:10 - 1:00pm CST

Positive early childhood experiences are critical for babies as their brain develops faster during this time than any other throughout the lifespan. Stress and trauma can have significant impacts on brain development. Join this session to learn the actions that provide protective factors for healthy brain development in babies.
